Life Dehydrates. DripDrop Hydrates.

DripDrop is a new, great-tasting, medical grade hydration solution that treats and prevents dehydration resulting from illness and/or excessive sweating. Developed by a Mayo Clinic trained physician who was tired of prescribing poor tasting solutions to his patients, DripDrop is an Oral Rehydration Solution (ORS) containing a proven ratio of sodium, sugars and other electrolytes that absorbs quickly and hydrates more effectively. It is safe for children, adults and seniors.

- Our formula delivers 2-3 times the electrolytes of sports drinks
- Contains 25% more electrolytes than pediatric alternatives
- Has no artificial flavors and tastes great
